Dental Warranty

Our Practice is proud of the dentistry that we provide for you and your family. Our goal is not to simply correct any dental problems you may have, but to help prevent dental disease in the future to save you time and expense. The long-term success of the treatment we provide depends on you; you should take care of your teeth and gums at home and should visit our office for regular professional exams, cleaning and fluoride treatment. Your professionally diagnosed care and recommended treatment varies based on your individual condition. Remember, we can't care more about your teeth than you do.

The Primary key to your long-term success is spending a few minutes a day on your home care (brushing, flossing and any prescribed products). The second key to success is regular professional examinations, professional cleanings, x-rays and fluoride treatments (3,4 or 6-month intervals depending on you condition) for services to be warrantied.

Because we are confident of the durability of our treatments and materials, we offer the following limited dental warranties.

TWO YEAR WARRANTY

Composite (Tooth Colored) Fillings: If a composite is the recommended treatment we will replace or repair it in the event of a failure for a period of 2 years. **Please note:** Composite restorations as a "compromised" form of treatment (*instead of a recommended crown*) are not covered under this warranty.

THREE YEAR WARRANTY

Dentures And Partial Dentures: If your denture is damaged under normal use (a tooth chips or breaks, or a flange breaks) we will repair it at no charge. This does not include accidents, such as dropping your denture, full upper and lower denture patients must be seen once every 12 months to maintain coverage.

FIVE-SEVEN YEAR WARRANTY

Crown, Bridges, Inlays, Onlays and Porcelain Veneers: We will warranty these treatments in the event that they fail.

- 1-3 years at no charge to you
- 4th year you pay 25% of current fee.
- 5th year you pay 50% of current fee.
- 6th-7th year you pay 75% of current fee.

This does not include accidents that could also break normal healthy teeth. Teeth that were previously crowned at our office (1-3 years) that fracture and require an implant or bridge could be eligible for a 50% reduction on the crown fee. After 3 years the fee is 100%. If a night guard is part of your treatment plan, it must be worn every night and brought to every visit.

We cannot predict if, and/ or when gum or nerve treatments (such as a root canal) may be required. If needed, they would require additional fees.

PROVISIONS & WHAT ISN'T COVERED BY THE LIMITED WARRANTY

- Failure to follow your prescribed continuing care visits (3, 4, or 6 months) for profession exam, cleaning and x-rays, and necessary gum or nerve treatments as prescribed to prevent gum and tooth decay.
- Failure to keep account in good standing.
- Failure or damage to restorations caused by traumatic injuries, chewing ice or non-food items
- Failure to have regular visits with our office voids all warranties.
- Decay around crowns and fillings.
